SCORPION DATA SECURITY is a corporation specializing in the secure scanning, imaging, digital archiving, physical storage and destruction of confidential documents and material. We service all industries (e.g., business, healthcare, insurance, legal, banking, real estate and government) that have confidential information on paper or other media.

Our competitive advantage and value proposition model embraces lean methodologies and six-sigma strategies to create a cost effective value stream for our customers. In addition, Scorpion Data security offers executive level account management and involvement with quantitative and qualitative analysis of your document's total life cycle. We have invested in innovation, infrastructure and technology creating world class processes while embedding the highest security standards required by NAID (National Association of Information Destruction) and PRISM (Professional Records & Information Services Management).

We respond to same day document destruction requests with your choice of mobile / onsite destruction or offsite destruction at one of our shredding plants. Our bonded and insured document collection specialists will arrive at your location wearing polo shirts, khakis and identification badges. Using the latest advancement in mobile destruction technology (e.g., barcodes, scanners and hand held computers), the security of your confidential material is never compromised. We provide lockable containers and scheduling that exceed your expectations. The containers are weighed and safely loaded into our mobile shredding vehicle with our innovatively designed automatic ergonomic lift system. We utilize a low speed, pierce and tear shred method to ensure low dust and repeatable shred quality. Our mobile shredding vehicles are equipped with closed circuit video monitoring systems and high level security controls. We have incorporated the newest green technology into our shredding trucks delivering on our commitment to environmental responsibility. A "Certificate of Destruction" is issued after services are rendered and a "Weight Verification Ticket" can also be provided. We recycle all shredded material after it has been pulverized and pulped.

It is the Law...you must properly dispose of your documents and shredding is the most secure and cost effective method of protecting your organization's reputation, public image, trade secrets, customers, employees and shareholders. Scorpion Data Security will ensure your compliance with Information Protection Laws such as:

- The Fair and Accurate Credit Transaction Act (2003). (FACTA)
- The Health Insurance Portability and Accountability Act . (HIPAA)
- The Gramm-Leach-Bliley Act (1999). (GLBA)
- Economic Espionage Act (1996)
- The Red Flag Rule
- Sarbanes - Oxley Act. (SOX)

SDS is a leader in the document destruction and records storage industry. We create unique and innovative solutions that customers trust, desire, select and recommend. Scorpion Data Security is a Certified Minority Business Enterprise offering Tier 1 and Tier 2 spend capability with demonstrated capacity and flexible scalability.
